San José State University

San José State University is a major, comprehensive public university located in the center of San Jose and in the heart of Silicon Valley. SJSU is the oldest state university in California. Its distinctive character has been forged by its long history, by its location, and by its vision - a blend of the old and the new, of the traditional and the innovative. Among its most prized traditions is an uncompromising commitment to offer access to higher education to all persons who meet the criteria for admission, yielding a stimulating mix of age groups, cultures, and economic backgrounds for teaching, learning, and research. SJSU takes pride in and is firmly committed to teaching and learning, with a faculty that is active in scholarship, research, technological innovation, community service, and the arts.

Living in the San José State Community

Located in the heart of Silicon Valley, the world's high-tech capital, San José State University is an exceptional place to pursue undergraduate or graduate study. From its beautiful, tree-lined campus in downtown San José, the university sends more business, engineering, education and computer science graduates into Silicon Valley than any other school. Serving a student body of more than 34,000, San José State offers degrees in more than 134 programs and concentrations. Students benefit from the excitement of studying at a large, urban university—a true crossroads of cultures—in the nation's 10th largest city. Yet they enjoy the personal attention of faculty within the smaller setting of the university's seven colleges. Founded in 1857, SJSU is the oldest public institution of higher education on the West Coast. Today the university is recognized for its award-winning faculty, high-achieving students, cutting-edge programs and innovative collaborations with the community and the corporate world.

Highcharts.com

Total Typical Cost of Attendance: \$21,726

Out-of-State & Other Costs

More Information

The cost to attend San José State University varies based on the individual circumstances of students and may be reduced through grants and scholarships.

How much would I pay?

Financial Aid: How much help is there to pay?

Scholarships & Grants

- 39% of 2009-10 full-time undergraduates received need-based grants or scholarships; the average award for the year was \$7,840. Scholarships and grants are financial aid that does not need to be repaid and is sometimes referred to as gift aid.

Annual Need-Based Loans

- 27% of 2009-10 full-time undergraduates received need-based work-study and/or loans (not including parent loans); the average loan for the year was \$4,310. Loans need to be repaid. Typically, repayment starts once you are no longer enrolled full-time. Please refer to page 12 of the Funding Education Beyond High School guide on the US Department of Education's Federal Student Aid website for more information about Financial Need.

More Information

Campus Safety

The safety and security of students, faculty and staff at San Jose State is the full-time responsibility of the University Police Department. A force of 32 sworn positions provides protection of the campus itself, ensures the orderly flow of traffic and enforces parking regulations. UPD officers patrol near campus, where many students live, and works with other police agencies on enforcement and investigation.

Campus Crime Statistics

Carnegie Classification of Institutional Characteristics

The Carnegie Classification's were created "to reference the great diversity of colleges and universities in the United States, and ... enable [people] to identify groups of roughly comparable institutions." For information on the Carnegie Classifications system, please visit their website: <http://classifications.carnegiefoundation.org/>

Basic Type

Master's Colleges and Universities (larger programs)

Size and Setting

Medium four-year, primarily nonresidential

Enrollment Profile

High undergraduate

Undergraduate Profile

Medium full-time four-year, selective, higher transfer-in

Undergraduate Instructional Program

Balanced arts & sciences/professions, high graduate coexistence

Graduate Instructional Program

Postbaccalaureate comprehensive

More Information

Student Activities and Involvement at SJSU

Students who are actively involved in their own learning and development are more likely to be successful in college. Colleges and universities offer students a wide variety of opportunities both inside and outside the classroom to become engaged with new ideas, people, and experiences. Institutions measure the effectiveness of these opportunities in a variety of ways to better understand what types of activities and programs students find the most helpful.

Institutions participating in the VSA program measure student involvement on campus using one of four national surveys. Results from the one survey are reported for a common set of questions selected as part of VSA. Following are the selected results from the National Survey of Student Engagement (NSSE). The questions have been grouped together in categories that are known to contribute to student learning and development. The results reported below are based on the responses of seniors who participated in the survey.

Group Learning Experiences

- 95% percent of seniors worked with classmates on assignments outside of class.
- 58% of seniors tutored or taught other students
- 17% of seniors spent at least 6 hours per week participating in co-curricular activities such as student organizations and intramural sports

Active Learning Experiences

- 84% of seniors spent at least 6 hours per week preparing for class
- 16% of seniors worked on a research project with a faculty member
- 47% of seniors participated in an internship, practicum, or field experience
- 52% of seniors participated in community service or volunteer work
- 7% of seniors participated in study abroad
- 98% of seniors made at least one class presentation last year

Institutional Commitment to Student Learning and Success

- 92% of seniors believe this institution provides support for student success
- 58% of seniors rated the quality of academic advising at this institution as good or excellent
- 61% of seniors reported that this institution provided help in coping with work, family and other non-academic responsibilities
- 94% of seniors reported working harder than they thought they could to meet an instructor's standards or expectations

Student Interaction with Campus Faculty and Staff

- 35% of seniors believed that the campus staff were helpful, considerate, or flexible
- 66% of seniors believed that faculty are available, helpful, or sympathetic
- 94% of seniors reported that faculty members provided prompt feedback on their academic performance
- 67% of seniors discussed readings or ideas with faculty members outside of class

Experiences with Diverse Groups of People and Ideas

- 60% of seniors reported that they often tried to understand someone else's point of view
- 86% of seniors reported their experience at this institution contributed to their understanding people of other racial and ethnic backgrounds
- 65% of seniors often had serious conversations with students of a different race or ethnicity

Student Satisfaction

- 77% of seniors would attend this institution if they started over again
- 79% of seniors rated their entire educational experience as good or excellent
- 76% of seniors reported that other students were friendly or supportive

More Information

Student Learning at San José State University

All colleges and universities use multiple approaches to measure student learning. Many of these are specific to particular disciplines, many are coordinated with accrediting agencies, and many are based on outcomes after students have graduated.

As part of San José State University's commitment to graduating well educated students, assessment of student learning is integrated into all components of the curriculum. The development of student learning outcomes for courses, degree programs, and general education is overseen by committees at the department, college, and university levels. Assessment of student learning is likewise a shared responsibility at each of these levels and is overseen by the Associate Vice Presidents for Undergraduate Studies and for Graduate Studies and Research with the support of the Director of Assessment and assessment coordinators for each of the seven colleges.

Learning Assessment Examples

Pilot Project to Measure Core Learning Outcomes

Colleges and universities participating in the College Portrait measure the typical improvement in students' abilities to think, reason, and write using one of three tests. This is part of a pilot project to better understand and compare what students learn between their freshman and senior years at different colleges and universities.

2010-10 Results from the Collegiate Learning Assessment

The Collegiate Learning Assessment (CLA) measures critical thinking, analytic reasoning, problem solving, and written communication using a performance task and an analytic writing task. The scores from the tasks are reported separately below.

Test Administration Process

Test Information

Performance Task Results for First-time, Full-time Students

The increase in learning on the performance task is at or near what would be expected at an institution testing students of similar academic abilities.

Freshman Score: 1030

Senior Score: 1097

CLA score range: 400 to no maximum score.

Average EEA scores for tested students

Freshman Score: 1017

Senior Score: 968

Analytic Writing Task Results for First-time, Full-time Students

The increase in learning on the analytic writing task is above what would be expected at an institution testing students of similar academic abilities.

Freshman Score: 1095

Senior Score: 1190

CLA score range: 400 to no maximum score.

Average EEA scores for tested students

Freshman Score: 1030

Senior Score: 977
