## Overview of Faculty Assigned Time

Faculty teaching workloads may be reduced for research, contracts, service, and special projects for the department, college or university through special assignments called **assigned time**. Awards of assigned time are governed by the CFA contract, CSU policy, and campus policy. Below are general guidelines for how assigned time is used at SJSU.

1. Assigned time weighted teaching units (WTUs) are normally awarded only to tenured/tenure-track faculty. Part-time and temporary faculty are awarded assigned time WTUs only for *special circumstances*.
2. Assigned time can only be used for those faculty members whose funding source is general fund (state supported) and who were released from a state-supported class.
3. Faculty activities funded by a non-state supported funds such as the 48XXX series funds or reimbursed activities like grants may not receive assigned time for those assignments, but may receive the SJSU BUYOUT code to account for this activity.
4. Faculty may receive no more than 12 WTUs of assigned time per semester. (Tenured/tenure-track faculty automatically receive 3 WTUs of service credit).
5. These are the major types of assigned time codes recognized by the CSU system:
  - a. Direct Assigned Time: EXENR1, EXENR2, NONTDL, CRDEVL, and GRDEXM
  - b. Indirect Assigned Time: All others, except BUYOUT
  - c. Not Counted as Assigned Time: BUYOUT (for campus tracking only)

See below for more background on workload calculations and the use of assigned time.

## Reporting Assigned Time

At SJSU faculty assigned time is collected every fall and spring using on the IEA web site at this location:

<http://iea.sjsu.edu/others/APDB>

Users must be authorized before they can gain access to the system. Once logged in, users can submit and approve workload records for their respective department or college based on their role.

Below is an overview of the data elements used to record assigned time.

Name: First and last name of the faculty member being awarded assigned time.

Emplid: Employee ID number of the faculty member.

Employee Record Number: Use the record number from the faculty profile. There is a different number for each separate appointment. If an individual has more than one, be sure to match the workload to the correct appointment.

Department: Department of faculty member being awarded assigned time.

**Brief Description of Responsibilities:** A brief descriptive statement regarding the specific responsibilities for which the faculty member is to receive assigned time. If WTUs are to be given for more than one activity, enter each one on separate lines with the corresponding activity codes.

**Activity Code:** Enter the activity code (see the list of codes above) for which the assigned time WTUs are being awarded.

**Type:** Identifies the type of assigned time the faculty is receiving. (Choose from the three options)

**Teaching/Classroom Instruction :** (teaching related assignments only) – assigned time directly involved in teaching within the classroom; for example, code EXENR1 (excess enrollment) or code TEAMT (team teaching). Other assigned time which is identified under this category will be based on the description.

**Administrative:** Assigned time related to administrative responsibilities for example directors, associate or assistant department chairs and deans.

**Other Workload:** (includes indirect instructional and support related duties) All other assigned time is identified in this category; for example, code NEWPRP (new course preparations), all advising duties, committees, accreditation, curriculum/class development, special projects, and research/scholarship/creative activity (RSCA) workload.

**WTUs:** Enter the number of WTUs for the assignment, which cannot exceed **12** WTUs across all of an individual’s assigned time records for the semester. WTUs are calculated by multiplying the FTEF appointment fraction by 15 (see conversion table below).

Assigned time WTUs can be further identified as:

Department – research, banked supervision, excess advising, coordinator, program planning, etc

Dean’s – college committee, special college project, etc.

University – Academic Senate, university RTP Committee, faculty development, etc.

Conversion of FTEF to WTUs		
.10 FTEF = 1.50 WTU	.35 FTEF = 5.25 WTU	.60 FTEF = 9.00 WTU
.15 FTEF = 2.25 WTU	.40 FTEF = 6.00 WTU	.65 FTEF = 9.75 WTU
.20 FTEF = 3.00 WTU	.45 FTEF = 6.75 WTU	.70 FTEF = 10.50 WTU
.25 FTEF = 3.75 WTU	.50 FTEF = 7.50 WTU	.75 FTEF = 11.25 WTU
.30 FTEF = 4.50 WTU	.55 FTEF = 8.25 WTU	.80 FTEF = 12.00 WTU

## Additional Background on Workload

- **How is workload calculated?**

Total workload is the sum of course/supervision workload and any assigned time. Workload is calculated for classroom instruction (C-factored courses) on the basis of the unit value of the section. Supervision (S-factored courses) is calculated based on the number of students in the section regardless of the unit value.

Classroom Example	100W is a 3 unit C-factored course (C5 has a K-factor of 1 WTU) Each course unit is 1 WTU for a total of 3 WTUs (3 units x 1 WTU)
Supervision Example	299 is a S-factored course (S25 is 0.5 WTU per student) 6 students enroll for a total of 3.0 WTUs (6 students x 0.5 WTU)

- **Can workload be shared?**

Yes, under the right circumstances. Any section can be team taught by up to six instructors by placing each instructor's employee ID in PeopleSoft. The instructor load fields are adjusted to show the amount of instruction each instructor is providing. The total for all the instructor load fields (up to six) must equal 100 percent. All assignments should correctly reflect who is teaching the section. In all cases, the instructor(s) assigned to a section should be the one(s) providing the instruction or supervision and assigning grades.

- **Is workload audited?**

All workload recorded undergoes a series of reviews and edits at the campus and CSU system level. At any time the campus, Chancellor's Office, or State can request an audit of data reported.

- **Normal workload guidelines for full-time faculty (1.0 FTEF)**

Regular Faculty (Tenured and Probationary) General Fund

12 WTUs of direct instructional assignments, 36 hrs/week. On a limited basis, faculty may be reassigned to other duties using assigned time.

3 WTUs of indirect instructional activity, such as student advisement, curricular planning, office hours and committee assignments from 4 to 9 hrs/week.

Temporary Faculty General Fund

15 WTUs of direct instructional assignments.

Variations in course credit hours and workload factors make it difficult to schedule faculty for exactly the correct amount of WTUs in all circumstances.

- **Course classification - C/S numbers**

A course is designated C1 - C21 or S23, 24, 25, 36, or 48 to describe the mode of instruction (e.g., lecture, activity, laboratory, etc.), and the WTUs to be assigned to the instructor responsible for the course.

C Classified Courses

These courses are lecture, discussion, seminar, clinical process, activity laboratory, instructional laboratory, performance, or activity meeting at a set time and place. There are 21 classifications organized into six categories representing the mode of instruction, and a workload value. A course may have two or more segments or co-requisite activities requiring more than one classification (example: lecture with a laboratory).

Course Classification	Course Description	K-Factor
C1	Large Lecture	1.0
C2	Lecture Discussion	1.0
C3	Lecture Composition, etc.	1.0

S Classified Courses

This category involves direct one-on-one faculty supervision of students for student teaching, field work experience, studio instruction, theses and projects by arrangement. Workload credit is earned per student enrollment independent of the course’s unit value. The average amount of faculty time per student includes faculty preparation, evaluation, travel, and liaison with agencies.

48	¾ hr/week	Music Studio	0.250
77		Non-State Support	0.000
78		Non-State Support	0.000

• **Workload Conversions - FTEF and WTU**
